PROFILE

Backend Developer specialized in Django and Django REST Framework, with experience in building SaaS platforms, e-commerce systems, and real-time applications. Skilled in databases, containerization, and API development, with a focus on clean code and continuous learning.

EXPERIENCE

Backend Developer
One Door   **2025-Present**

- Developed **CleanO**, a SaaS laundry platform with JWT authentication, payments, subscriptions, and real-time notifications.
- Built **Doooss**, a modular SaaS with OTP flows, reels , and chat system.
- Implemented PDF invoices, payout system, and multi-tenant isolation with Django + Celery.

Backend Developer
Freelance   **2023-2025**

- **Levelist** (Career Guidance SaaS): Built microservices-based backend for learning tracks, interview prep, and personalized plans.
- **Bookspace API** (E-commerce): Developed product catalog, cart, and order system with Django + PostgreSQL.
- **Castera** (Livestream App): Real-time chat + meetings with WebRTC and Django backend.
